At the March 5th, 2025 Bicycle Advisory Committee Meeting, DPW - Transportation Staff will review the details of the proposed safety improvements on Chestnut Hill Avenue for narrowed travel lanes, new pedestrian crossings, the repair of sidewalks, higher visibility crosswalks, protected bicycle lanes, and rectangular rapid flashing beacons (RRFBs) from the Boston border to Route 9. As part of the proposed safety improvements, this entire stretch of road will be resurfaced.

The proposed concept plan can be viewed on our website by February 28th:

Questions about the safety improvements can be directed to transportation@brooklinema.gov

The project would require Transportation Board approval at a future meeting.
